

THE DACIA SANDRIDERS

PRESS RELEASE - 10/06/2025

THE DACIA SANDRIDERS DELIGHTED AS GUTIÉRREZ AND MORENO EXTEND THEIR STAYS

- Spaniards continue their rally-raid adventure with The Dacia Sandriders
- The Spanish duo will compete in the 2026 and 2027 Dakar Rally, as well as several rounds of the 2026 World Rally-Raid Championship.
- Team principal Isnard: *"It's the logical and natural continuity of the work they have done in races and in development"*

The Dacia Sandriders is delighted to count on the skills of driver Cristina Gutiérrez and navigator Pablo Moreno up to and including the 2027 Dakar Rally as it continues its pursuit of further success in the FIA World Rally-Raid Championship (W2RC).

What represents a significant boost for The Dacia Sandriders follows the team's capture of a third W2RC podium in four attempts - and its second of the current season - on last week's South African Safari Rally.

The agreement extension with Gutiérrez and Moreno covers 2026 Dakar Rally, two additional W2RC races that same year, including Rallye du Maroc* and 2027 Dakar Rally.

Tiphane Isnard, team principal of The Dacia Sandriders, said: *"All of us at The Dacia Sandriders are really delighted that we will continue our collaboration with Cristina and Pablo. It's the logical and natural continuity of the work they have done in races and in development. As a crew they are performing very well and always inspire the team because they never give up and always work so hard. They have performed an important role in building the team spirit with the other crews and the entire team as well as helping and supporting everyone whenever they can. They are still in a progressive phase of their careers but it's a privilege that we will continue to support their progression, which is already very positive."*

Cristina Gutiérrez said: *"To be able to extend our contracts with The Dacia Sandriders is one of the biggest moments of my career, just like it was when I first signed for the team. To have the possibility to continue with The Dacia Sandriders gives a really good feeling because the team gives us a lot of confidence to develop and improve. We are*

THE DACIA SANDRIDERS

super-happy to be part of a team that includes two legends of the sport, Nasser Al-Attiyah and Sébastien Loeb, and we will try to do our best, as always. We want to make history with Dacia by helping the team to achieve the dream of winning the Dakar. It's also our dream so we will be very focused on this programme with this special team."

Pablo Moreno said: *"It's super news for us to be able to continue the adventure with The Dacia Sandriders, a team that feels like a family. It was a dream for us to join the team and to be able to continue together the project means a lot. We will bring everything we can to the project. For sure our goal is to win the Dakar Rally with The Dacia Sandriders. We will give our very best to try to reach that goal."*

WHEN GUTIÉRREZ AND MORENO BECAME DAKAR RALLY HEROES FOR THE DACIA SANDRIDERS

For their first Dakar Rally in the T1+ category, Cristina Gutiérrez and Pablo Moreno delivered four top-10 stage results - including a brilliant fifth place on Stage 1 and the sixth fastest time on Stage 10.

After an early setback on Stage 2, Gutiérrez and Moreno shifted their focus to the team, stepping in multiple times to assist their fellow team mates and contribute to the overall effort.

That teamwork was particularly notable on Stage 4. Having helped Nasser Al-Attiyah and Édouard Boulanger continue after their Dacia Sandrider suffered a suspension failure caused by the punishing terrain, Gutiérrez and Moreno came to the rescue again at the overnight halt in AIUla following the completion of the first Marathon Stage.

With Marathon Stage rules preventing outside assistance apart from help provided by other competing crews, Moreno, a qualified mechanic, worked with The Dacia Sandriders' T5 crew to swap the gearboxes of both cars ready for Stage 5.

Gutiérrez and Moreno had earlier helped Sébastien Loeb and Fabian Lurquin with spare parts and a replacement tyre following their roll on Stage 3 and also when an electrical issue struck Loeb and Lurquin's Dacia Sandrider on Stage 2.

THE DACIA **SANDRIDERS**

The Spaniards, who spent the remainder of the event shadowing Al-Attiyah and Boulanger through the stages in case further assistance was required, were presented with a signed toolbox by members of The Dacia Sandriders team at the finish of Stage 5 in recognition of their efforts.

Next up for our Spanish crew: the BP Ultimate Rally Raid Portugal, round four of the 2025 FIA World Rally-Raid Championship, taking place from September 22-28. Cristina and Pablo will be back behind the wheel for the Dacia Sandriders, carrying number 212 on the doors.

**Subject to inclusion on W2RC calendar*
